Letter from the Presidents

The New Mexico Council of University Presidents is pleased to present its tenth annual accountability and performance report on behalf of our State's public universities. The Performance Effectiveness Report is offered as partial compliance with the Accountability in Government Act (AGA). This writing culminates a year-long process that began with careful attention to feedback from numerous constituencies including Governor Richardson, the Legislature, the Higher Education Department, university personnel and students, private sector business leaders, analysts, and others interested in university efforts. The AGA performance measures enumerated in this submission are a focused subset of each university's ongoing efforts to respond to the policies and needs of New Mexico in concert with meeting the extensive accreditation and professional standards required of public universities.

The contents of this report are compiled and formatted by a highly skilled inter-institutional research work group. Great care is taken to assure the accuracy of data derived from consistently applied data definitions. Yet, the Council's commitment continues to extend beyond simply reporting data. This report responds to a public imperative for accountability and continuous improvement. Consistent with the provisions for governance prescribed by the New Mexico Constitution, this report demonstrates the resolve of New Mexico's public universities to improve the educational environment in our state, as well as the quality of life for all New Mexicans.

On behalf of the University of New Mexico, New Mexico State University, New Mexico Tech, Eastern New Mexico University, Western New Mexico University and New Mexico Highlands University, the Council of University Presidents presents the tenth annual accountability report.

Sincerely,

COUNCIL OF UNIVERSITY PRESIDENTS

Daniel H. López
Chair

THE PERFORMANCE EFFECTIVENESS PLAN OF NEW MEXICO'S PUBLIC UNIVERSITIES

Accountability and Performance Reporting Categories

As suggested in the Letter from the Presidents, public universities respond to regional and national accreditation, professional standards and a host of federal and state reporting requirements. In fact, being accountable has become a full-time and highly complex job of considerable consequence. This document represents a single significant component of each university's extensive reporting efforts.

The New Mexico Council of University Presidents directly responds to the expectations of policy makers and other concerned citizens by publishing an annual Performance Effectiveness Report designed, in part, to comply with the requirements of the Accountability in Government Act (AGA). This report describes each university's AGA performance goals and offers considerable additional accountability information. The Council has identified a set of common indicators of university quality and effectiveness. These indicators measure the progress of New Mexico's universities in meeting statewide performance expectations. Focusing university and public attention on these indicators will promote the improvement of higher education and the achievement of our goals. Indicators of university quality the following comprehensive categories:

- Effective and efficient use of resources
- Accessible and affordable university education
- Student progress and student success in our universities
- Academic quality and a quality learning environment

For the first four quality indicator groups listed above, a common set of performance measures has been selected to provide a means by which each university can demonstrate its performance level. Although the universities use common performance measures, each institution's performance level reflects its unique institutional mission, students, and other constituencies, and the program and service mix it has developed in response to state and regional needs. Each institution uses these measures to set performance improvement goals, submitted to the Department of Finance and Administration. These appear as the last page of each institution's section.

Several performance measures are based on broad-based surveys of our constituencies, administered on a cyclical basis. These surveys provide valuable information for reviewing and enhancing our programs. Information includes measures on placement rates of graduates and alumni assessment of institutional quality, both of which are gathered from alumni surveys; and students' satisfaction with their undergraduate experiences, which is collected through a survey of graduating seniors.

LISTING of DATA and TABLES for the PERFORMANCE EFFECTIVENESS PLAN OF NEW MEXICO'S PUBLIC UNIVERSITIES

Effective and Efficient Use of Resources

- What percent of fiscal resources are allocated to our primary mission of instruction, research and public service?
- What percent of fiscal resources are allocated to administrative costs?
- How do these numbers compare to those of the institution's peers?
- What is the 2007-2008 total current funds revenue for the main campus?
- What is the 2007-2008 total state appropriation for the main campus as a percent of total main campus operating budget?

Accessible and Affordable University Education

Executive Summary Performance Effectiveness Report

The following information is displayed in order to provide a better look at the university performance measures across the institutions as a whole rather than just as individual entities. The tables and charts are organized according to the occurrence of the tables in the detail sections of the report that follows. Data is shown individually for New Mexico Institute of Mining and Technology (NMT), New Mexico State University (NMSU), University of New Mexico (UNM), Eastern New Mexico University (ENMU), New Mexico Highlands University (NMHU), and Western New Mexico University (WNMU). Graphic information for the University of New Mexico - Health Sciences Center is presented within their detail section of the report.

Full-Time Equivalent Student Enrollment

(from first page of each institution’s section in the 2004 through 2008 reports)

Most institutions grew over the past five years, with NMT, NMSU, UNM, ENMU, and NMHU having their highest FTE enrollment in fall 2008 than at any time over the past five years. WNMU is down 10% from their FTE enrollment level in 2004.

	2004	2005	2006	2007	2008	% Change Over Past 5 Years
NMT	1,477	1,505	1,481	1,472	1,524	3.2%
NMSU	12,910	12,596	12,793	13,091	13,354	3.4%
UNM	20,425	20,561	20,289	20,307	20,581	0.8%
ENMU	3,099	3,121	3,051	3,033	3,128	0.9%
NMHU	2,327	2,233	2,526	2,503	2,580	10.9%
WNMU	1,997	1,802	1,717	1,810	1,792	-10.3%

Total Current Funds Revenue for Main Campus

(from first page of each institution’s section in the 2008 report)

As would be expected, the distribution of Total Current Funds Revenue parallels the distribution of FTE students. In 2008-2009 the total Current Funds Revenue for the six universities is \$1.49 billion.

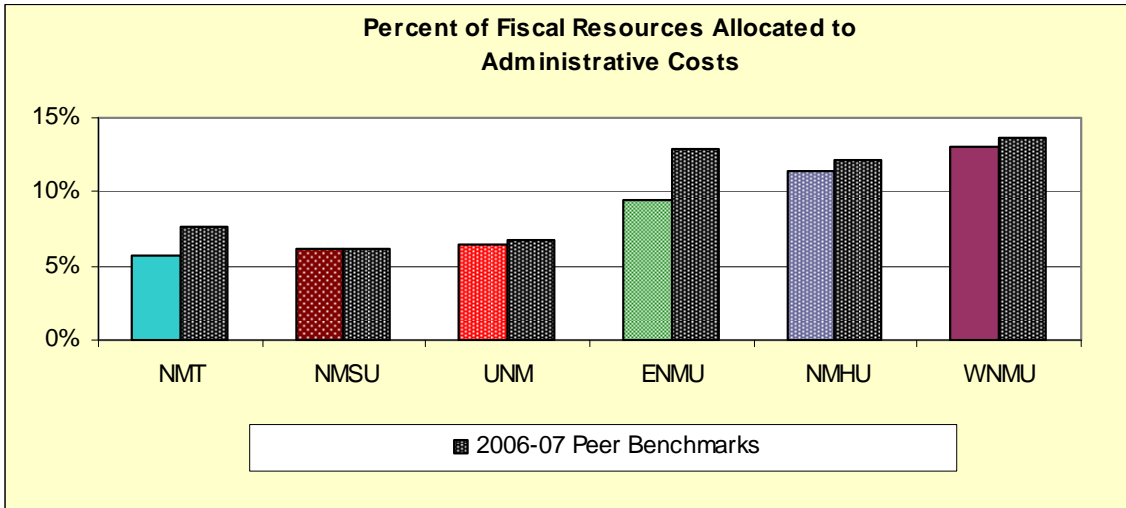

Percent of Fiscal Resources Allocated To Administrative Costs

(from profile page in 2007 and 2008 reports and table 19 in the 2004 through 2006 reports)

One measure of institutional efficiency is the percent of total educational resources dedicated to administrative costs. This chart examines the ratio of Administrative Costs (measured as institutional support) to total Education and General Expenditures (instruction, research, public service, academic support, student services, institutional support, operation and maintenance of plant, and scholarships and fellowships).

	2002-03	2003-04	2004-05	2005-06	2006-07
NMT	9.6%	6.8%	7.3%	8.0%	5.7%
NMSU	5.5%	5.6%	6.1%	5.9%	6.1%
UNM	4.5%	4.3%	6.2%	6.4%	6.4%
ENMU	15.1%	8.6%	8.6%	8.9%	9.5%
NMHU	10.9%	10.0%	11.4%	10.1%	11.4%
WNMU	13.3%	11.7%	11.4%	10.6%	13.0%

While there is some variation over time, administrative costs have tended to remain fairly constant and at or below the average rates for each institution’s peer institutions.

Percent of Fiscal Resources Allocated To Instruction, Research, and Public Service

(first profile page in 2007 and 2008 reports and table 18 in the 2004 through 2006 reports)

The primary mission of our institutions is instruction, research, and public service. Similar to the previous measure of Administrative Costs, this chart examines the ratio of expenditures supporting the primary mission to total Education and General Expenditures. The ratio of instruction, research, and public service expenditures to total educational and general expenditures has remained relatively constant over time for the institutions. These tend either to exceed or come close to the equivalent ratio at peer institutions.

	2002-03	2003-04	2004-05	2005-06	2006-07
NMT	69.8%	77.2%	74.9%	77.0%	82.7%
NMSU	76.3%	74.8%	76.1%	75.1%	74.7%
UNM	76.7%	77.2%	74.2%	74.5%	73.3%
ENMU	46.0%	49.8%	49.8%	48.3%	48.8%
NMHU	62.1%	60.2%	56.6%	56.9%	52.2%
WNMU	46.8%	49.9%	61.9%	58.3%	60.1%

Tuition Rates

(from Table 1 of 2008 report)

The tuition rate for all universities remains significantly below the average rate for their peer institutions. Tuition rates are roughly comparable within the research universities and within the comprehensive universities. Rates have increased by about 30% or so over the past five years at most of the universities, though the increases at NMSU and NMHU were about 21% and 18%, respectively.

	2004-2005	2005-2006	2006-2007	2007-2008	2008-2009	% Change Over Past 5 Years
NMT	\$3,280	\$3,644	\$4,187	\$4,104	\$4,352	32.7%
NMSU	\$3,666	\$3,918	\$4,230	\$4,452	\$4,758	29.8%
UNM	\$3,738	\$4,109	\$4,336	\$4,571	\$4,834	29.3%
ENMU	\$2,616	\$2,784	\$2,964	\$3,156	\$3,342	27.8%
NMHU	\$2,280	\$2,280	\$2,424	\$2,536	\$2,688	17.9%
WNMU	\$2,667	\$2,863	\$3,065	\$3,223	\$3,430	28.6%

Financial Aid That Must Be Paid Back By Students

(from Table 2, 2004 through 2008 reports)

There has been a gradual increase in the percent of total aid awarded that must be paid back (student loans). This percentage is around 50% for most New Mexico universities, though it is less at NMT.

	2003-04	2004-05	2005-06	2006-07	2007-08
NMT	28.6%	28.1%	26.2%	26.6%	23.9%
NMSU	49.9%	50.9%	53.3%	51.7%	54.0%
UNM	53.7%	56.2%	55.8%	50.2%	48.6%
ENMU	49.4%	52.2%	55.4%	54.5%	53.5%
NMHU	51.0%	53.1%	55.6%	54.4%	74.3%
WNMU	49.4%	52.2%	55.4%	45.0%	49.0%

Percent of Student Body Receiving Aid

(from Table 2 in the 2007 and 2008 reports, Table 3 in 2004 through 2006 reports)

Over half of all students at New Mexico universities receive some sort of financial aid, and the percentage is nearly 75% at several universities. This percentage varies from year to year.

	2003-04	2004-05	2005-06	2006-07	2007-08
NMT	48.1%	52.9%	49.9%	53.0%	61.0%
NMSU	64.3%	66.7%	66.4%	75.7%	74.0%
UNM	63.2%	64.2%	65.1%	69.8%	70.0%
ENMU	72.9%	67.4%	68.8%	74.9%	82.4%
NMHU	75.0%	77.0%	78.0%	76.0%	79.1%
WNMU	72.9%	67.4%	68.8%	67.2%	50.1%

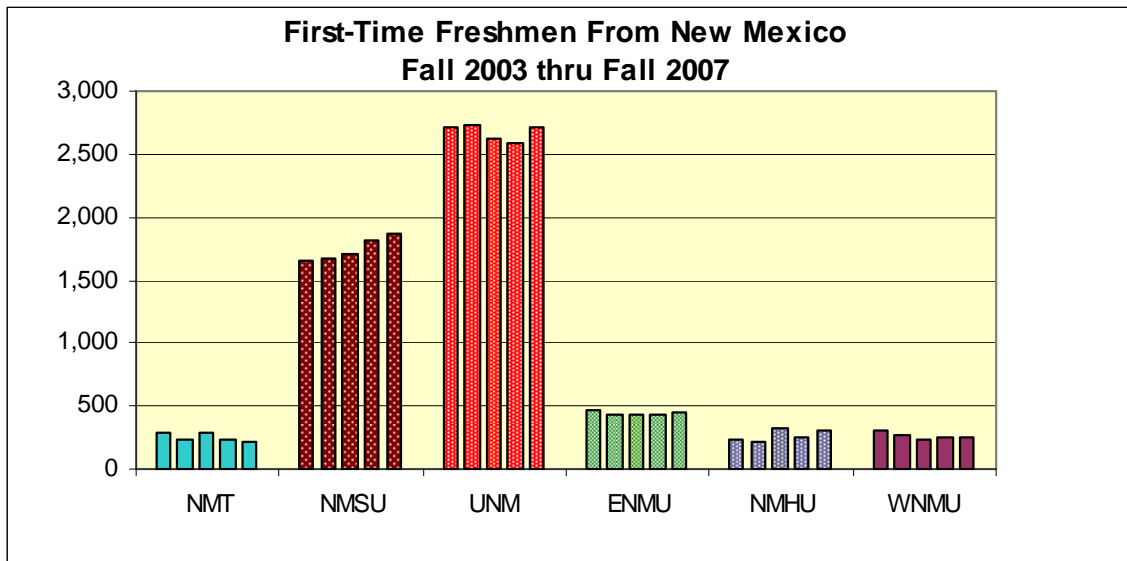

First-Time Freshmen from New Mexico

(from Table 3 in 2007 and 2008 reports and Table 4 in 2004 through 2006 reports)

The overall number of first-time freshmen attending New Mexico universities remained fairly constant over the past five years. The chart examines students who take the ACT test as a measure of high school graduates who are considering attending college. The number of ACT test takers also remained fairly constant, and the percentage attending a New Mexico university is around 48%.

	2004	2005	2006	2007	2008	% Change Over Past 5 Years
TOTAL	5,636	5,540	5,603	5,557	5,792	2.8%
ACT Test Takers	11,912	11,858	11,593	11,663	11,951	0.3%
% ACT Enrolled	47.3%	46.7%	48.3%	47.6%	48.5%	2.4%

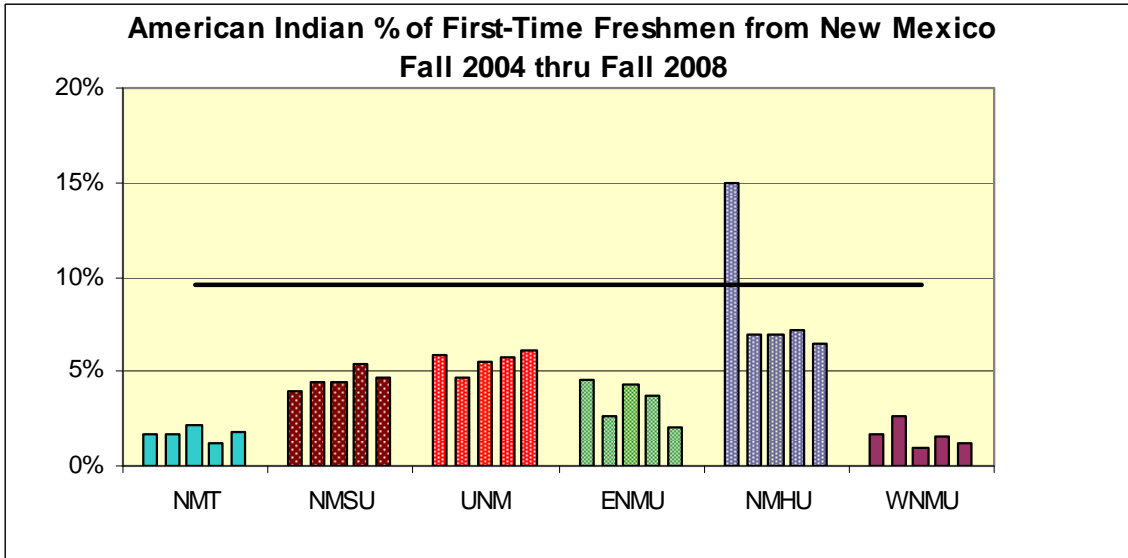

Hispanic and American Indian Diversity of First-Time Freshmen from New Mexico

(from Table 3 in 2007 and 2008 reports and Table 4 in 2004 through 2006 reports)

Universities are attentive to the ethnic distribution of first-time freshmen from New Mexico compared to the ethnic distribution of all New Mexico ACT test takers.

The average Hispanic percentage of ACT test takers over the past five years is about 32% (this percentage has remained fairly stable). Most of the universities in New Mexico enroll well over this percentage, with the overall average at about 43%.

The average American Indian percentage of ACT test takers over the past five years is about 9.6% (this has increased from 9.3% to 10.1%). The percentage at the universities is lower than that, averaging about 5% over the past five years. The following two tables show these percentages for Hispanics and American Indians.

Transfer Students from Two-Year Colleges

(from Table 4 in 2007 and 2008 reports and Table 5 in 2004 through 2006 reports)

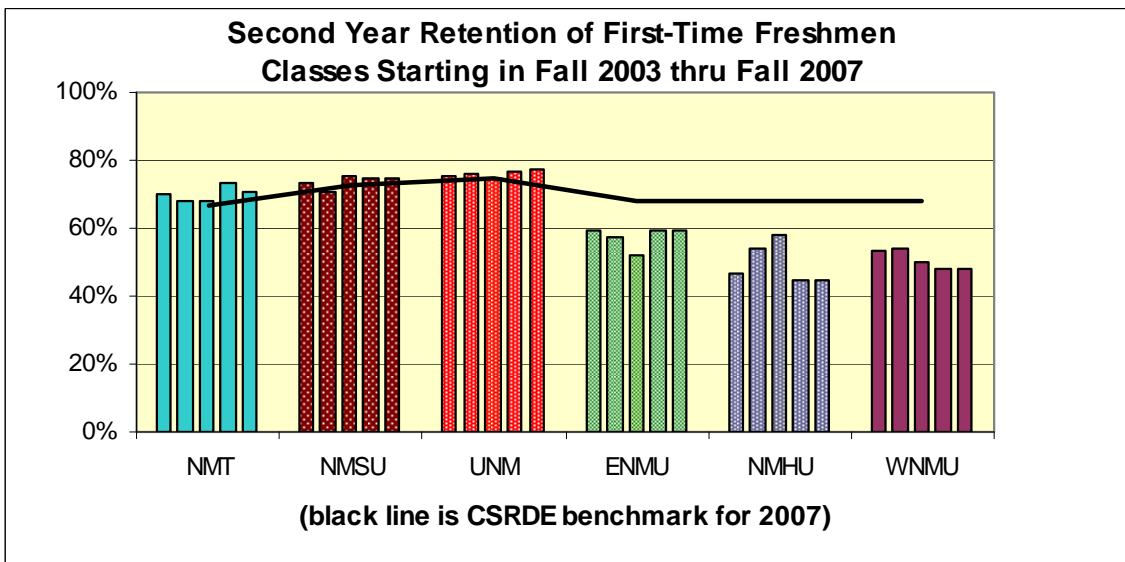

Another measure of access is transfer students from two-year colleges into New Mexico universities. This data is shown in the following chart for fall 2004 through fall 2008 (note, data for NMSU for fall 2007 is not available). Overall, the number of fall transfer students from two-year colleges has remained fairly constant.

Retention of First-Time Freshmen to Their Second Year

(from Table 5 of 2007 and 2008 reports and Table 6 of 2004 through 2006 reports)

Persistence of first-time freshmen to the second fall semester has remained relatively constant for all universities. Open-door admission policies at the comprehensive universities help explain the difference in their retention rates relative to the research universities. The black line in the graph represents the average retention rate for similar public universities based on size and their admission profile, as reported by the Consortium for Student Retention Data Exchange (CSRDE). The research universities are at or near their CSRDE benchmark, the comprehensive universities are all slightly below. All six universities have goals to improve student retention over the next few years.

Six-Year Graduation Rate of First-Time Freshmen

(from Table 6 of 2007 and 2008 report and Table 5 of 2004 through 2006 reports)

A graduation rate of first-time freshmen after six years is a measure that all institutions have committed to increase over the next few years. The data show a similar pattern to the retention rate data, with some fluctuations from year to year. As with retention, the open door admission policies of the comprehensive universities help explain the lower rates relative to the research universities. The black line in the graph represents the average six-year graduation rate for similar public universities based on size and their admission profile, as reported by the Consortium for Student Retention Data Exchange (CSRDE).

Degrees Awarded

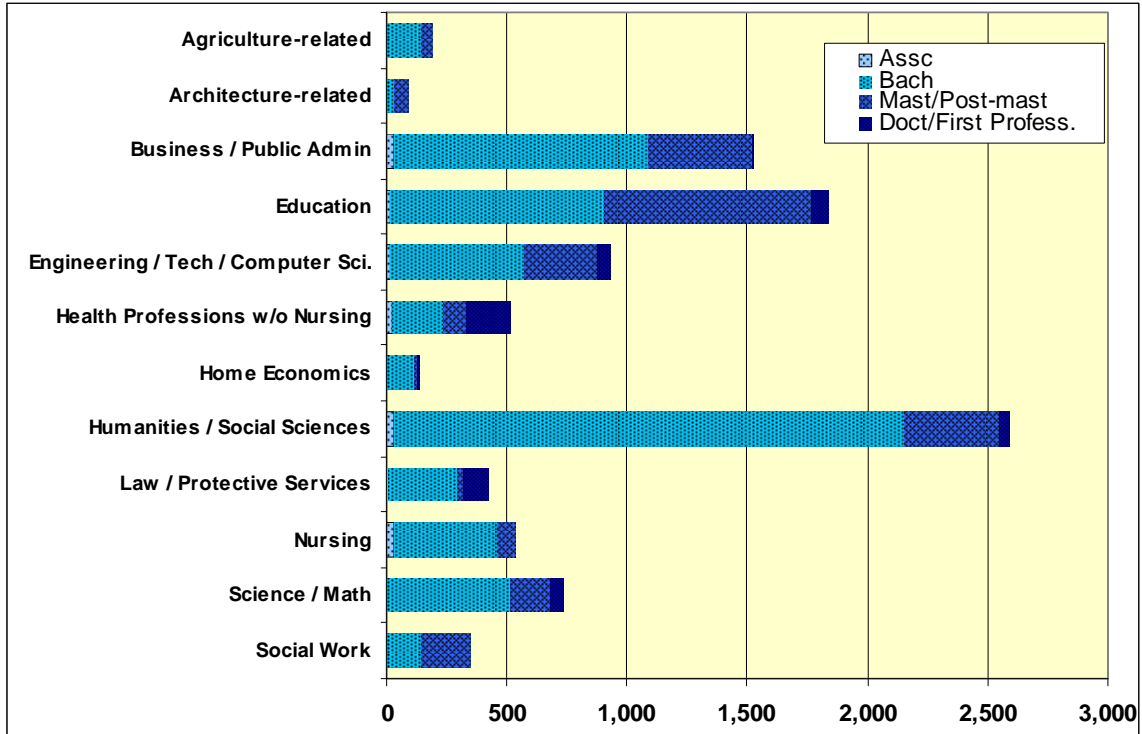

(from Table 7 in 2007 and 2008 reports and Table 8 in 2004 through 2006 reports)

There has been almost a 10% increase in the total number of degrees awarded over the past five years, growing from 9,098 in 2003-04 to 9,857 in 2007-08. One university has increased, and one experienced a slight decline.

The greatest number of degrees was awarded in humanities and the social sciences, followed by education, business/public administration, engineering/computer science, and science/math.

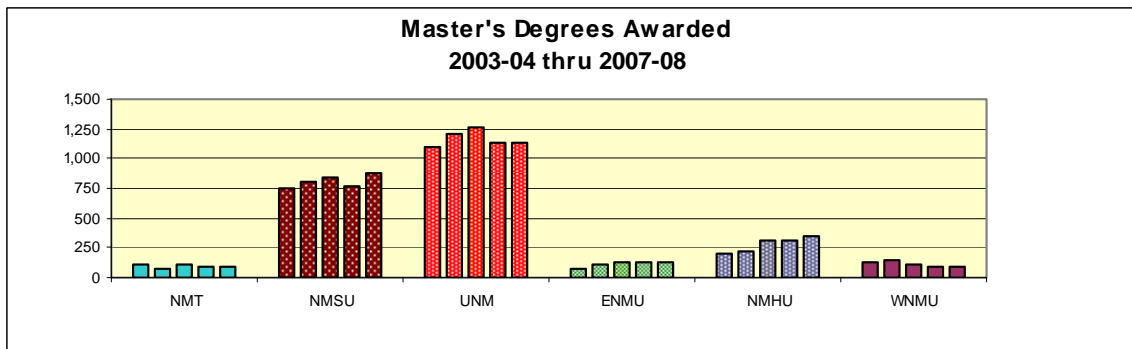

Degrees Awarded by New Mexico Universities in 2007-08

Bachelors degrees increased from 6,033 in 2003-04 to 6,505 in 2007-08, an increase of almost 500.

Total masters degrees also increased, from 2,354 in 2003-04 to 2,678 in 2007-08, an increase of almost 300. The high point was in 2005-06, with 2,740 total degrees.

Doctorate Research and Doctorate Professional Practice degrees (medicine, law, and pharmacy) are awarded only by the research universities. These totals have remained almost constant, with 526 granted in 2003-04 and 522 in 2007-08.

Faculty Diversity

(from Table 9 in the 2007 and 2008 reports, Table 10 in 2004 through 2006 reports)

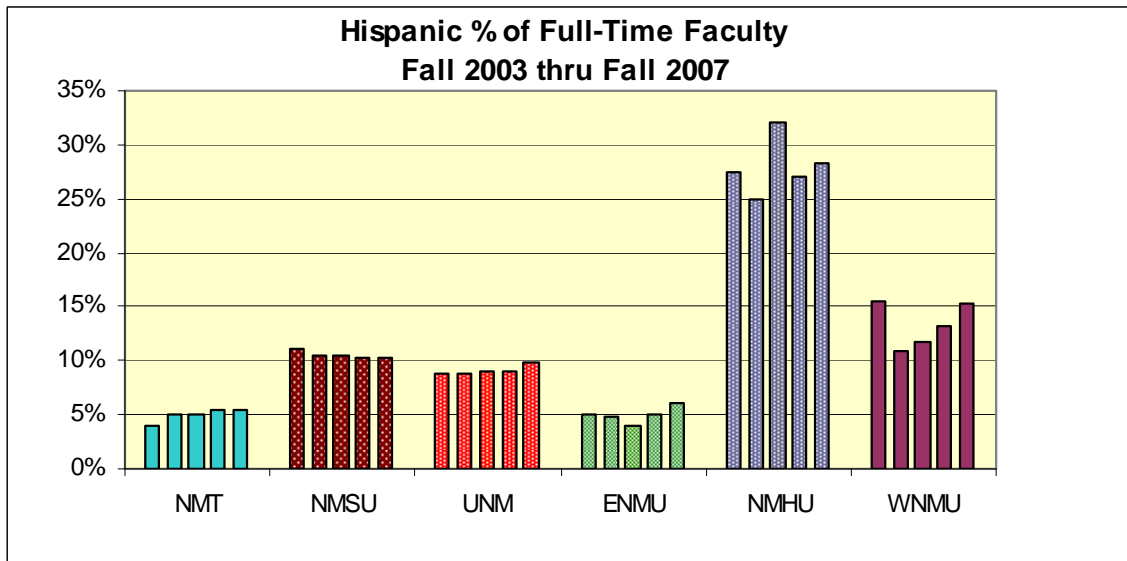

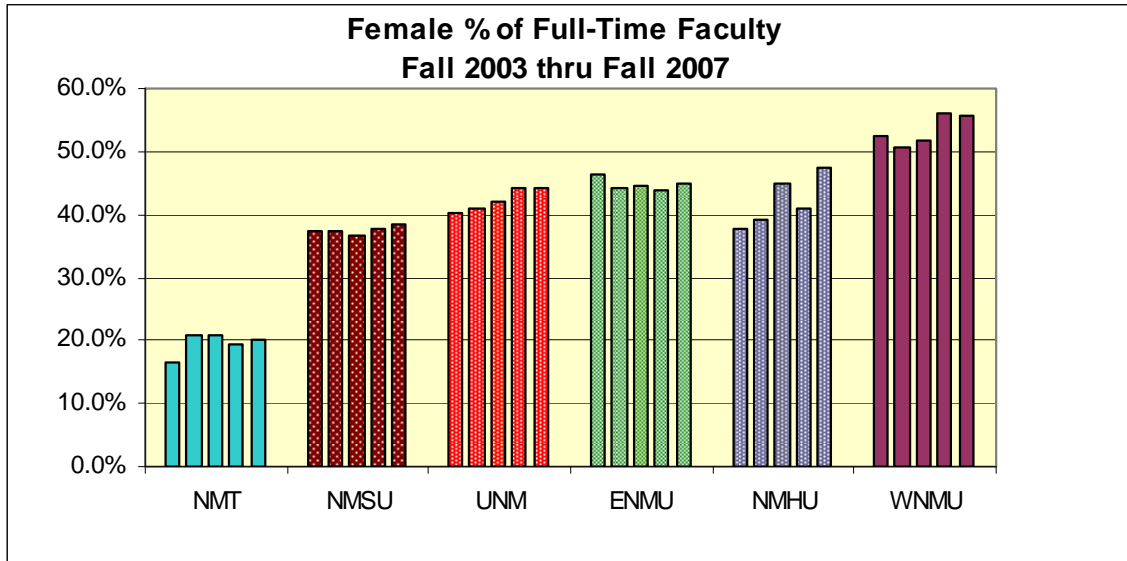

The number of full-time faculty at New Mexico universities has increased slightly over the past five years, growing from 2,613 in fall 2003 to 2,683 in fall 2008.

While the total number of faculty didn't increase dramatically, the percentage of female full-time faculty did increase, rising from 39.2% statewide in 2003 to 42.2% in 2007. All institutions had an increase in the number of female full-time faculty between 2003 and 2007.

The percentage of full-time faculty who are Hispanic stayed constant over that five-year period, changing only slightly, from 10.1% in 2003 to 10.4% in 2007. There is also quite a bit of variance between universities.

Similarly, the percentage of American Indian full-time faculty also stayed fairly level over the past five years, at about 1.6%. Some institutions report zero American Indian full-time faculty in some years. WNMU did not report any over the five-year period.

Faculty Salaries

(from Table 10 in the 2007 and 2008 reports, Table 12 in 2004 through 2006 reports)

Faculty salary increases at the universities varied from about 4% to about 18% over the past five years. Average salaries can be affected by the distribution of faculty across ranks.

	2003-04	2004-05	2005-06	2006-07	2007-08	% Change Over Past 5 Years
NMT	\$64,856	\$62,462	\$69,395	\$71,232	\$67,390	3.9%
NMSU	\$57,898	\$60,614	\$60,653	\$61,756	\$63,510	9.7%
UNM	\$68,090	\$71,755	\$73,269	\$76,112	\$80,296	17.9%
ENMU	\$48,519	\$50,183	\$50,386	\$52,387	\$54,823	13.0%
NMHU	\$45,735	\$46,794	\$48,906	\$49,455	\$49,864	9.0%
WNMU	\$43,388	\$45,987	\$47,614	\$50,243	\$50,554	16.5%

While salaries increased overall, they still remain significantly lower than average salaries at peer institutions, ranging in 2007 from 85% of peer salaries at NMT and NMHU to 92% at UNM.

Student Satisfaction

(from Table 13 in 2008 report)

Every three to four years the universities survey their graduating seniors to ask them about their satisfaction with many aspects of their education. Overall students report high levels of satisfaction, and overall satisfaction has remained fairly constant over the three survey periods.

Alumni Satisfaction

(from Table 14 in 2008 report)

Each year the universities survey graduating seniors, they also survey students who graduated with a bachelor’s degree three years previously. Respondents also report high levels of overall satisfaction, in many cases higher than the responses of graduating seniors.

- 2003-04 data from NMT is from a 2007-08 alumni survey, compiled by Career Services

Conclusion

This executive overview has provided comparative trend data across the six four-year universities in New Mexico for key performance and efficiency indicators. More specific data by university and from the University of New Mexico Health Sciences Center follow in the next sections.

Institutional Profile of New Mexico Institute of Mining and Technology

Mission:

New Mexico Tech is an institute of higher learning that serves the diverse population of New Mexico by integrating education, research, public service, and economic development through emphasis on science, engineering, and natural resources. Its mission is multi-fold:

- 1) helping students learn creative approaches to addressing complex issues;
- 2) acknowledging state and national diversity and developing an inclusive learning environment;
- 3) creating and communicating knowledge, and
- 4) solving technical and scientific problems

Institutional Profile of University of New Mexico

Mission:

The mission of the University of New Mexico is to serve as New Mexico’s flagship institution of higher learning through demonstrated and growing excellence in teaching, research, patient care, and community service.

UNM’s ongoing commitment to these cornerstones of purpose serves to:

- Educate and encourage students to develop the values, habits of mind, knowledge, and skills that they need to be enlightened citizens, contribute to the state and national economies, and lead satisfying lives.
- Discover and disseminate new knowledge and creative endeavors that will enhance the overall well-being of society.
- Deliver health care of the highest quality to all who depend on us to keep them healthy or restore them to wellness.

Actively support social, cultural, and economic development in our communities to enhance the quality of life for all New Mexicans.

Providing access to courses has been important to UNM for many years. With the advent of the Extended University (EU) five years ago, this became a priority, with the emphasis now on providing the necessary coursework for students to be able to complete the last two years for an undergraduate degree or most of the necessary course work for a masters degree. The UNM definition of "degrees granted utilizing Extended University Courses" covers some graduates of the College of Nursing. Based on the UNM definition, EU graduates in Nursing are not expected to increase significantly in the coming years. NOTE: These numbers represent graduates who were taking at least 1 Extended University class in their final semester, and who had a total of 12 credit hours via the Extended University while enrolled at UNM. From 2000-01 forward, the list of Extended University classes comes from EU, and includes internet and courses within the Albuquerque area as well as courses delivered outside of Albuquerque. In previous years, only the "extended services" courses reported to the CHE were available for analysis. In some cases, even after 2000-01, there are extended services courses that were not in the EU list--these courses were included in the analysis.

Providing a highly trained workforce for New Mexico is one of the primary missions of the University. In particular, the Health Sciences Center (HSC) is the only provider of many unique professional programs in New Mexico (e.g., Medicine and Pharmacy). Note that both Main Campus and HSC programs depend on units across the university. Because of class size limits in most HSC post-baccalaureate programs, increasing the number of degrees depends on additional funding for the programs.

Bringing external dollars into New Mexico is one way that UNM contributes to economic development and helps support the research and public service mission of the University. Expenditures are tracked separately for Main Campus and the Health Sciences Center (HSC), even though many research and public service projects are joint, interdisciplinary projects across both divisions of the university. The graph above shows the HSC expenditures. The HSC's goal is to increase our target by 2% per year beginning in AY 2006.

* Benchmark is the U.S./Canadian Medical Students Passing Rates from the National Board of Medical Examiners.

The graph above shows that the HSC SOM's high quality medical education has produced students that have surpassed the national average on its national exam test for the past several years. The target is the average SOM pass rate over previous four class years.

Percent Medical Students Who Secured One of Their Top Three Choices in the Residency Program

Actual		100	77	78	89	90					

The graph above shows that a high percentage of HSC School of Medicine medical students secured one of their top three choices in a residency program, but an important aspect is that 100% of the SOM's graduates make it into a residency program -- illustrating the SOM's high quality medical education. Note that the actual data is influenced by the students' agreement to self-report because it is not mandatory.

Actual	65%	67%	68%	69%	69%					

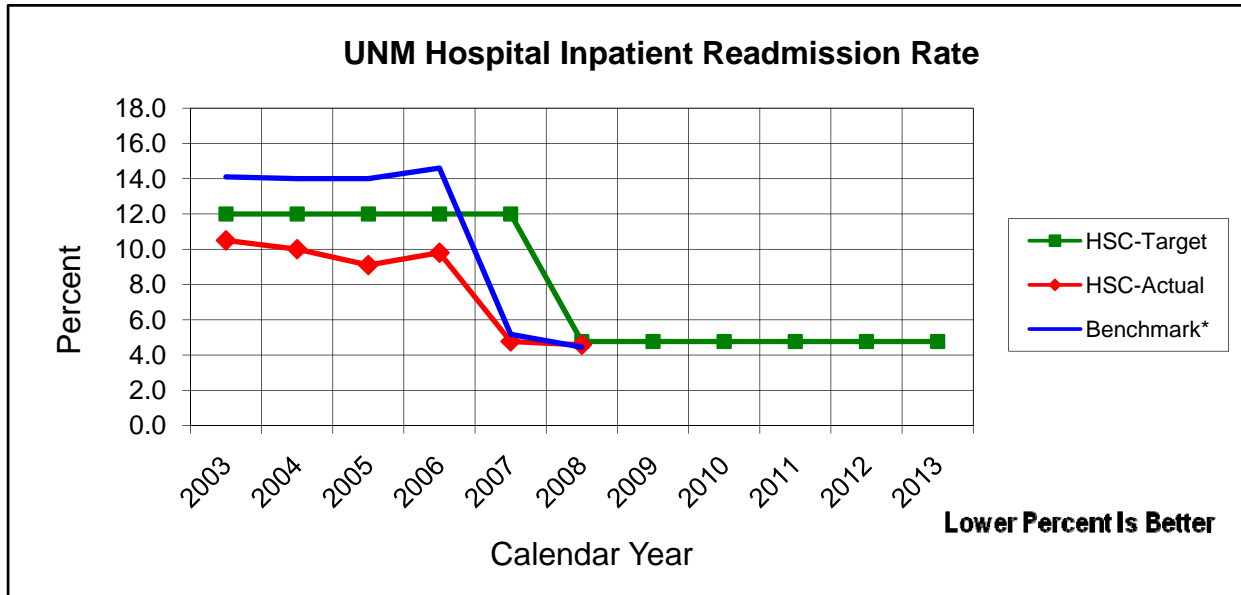

* Benchmark is the aggregate value for all national poison centers.

The graph above shows that the COP Poison & Drug Information Center (PDIC) has made progress relative to the successful treatment of poisoning exposures at home after patients have called. The target is to reach the national benchmark by about FY 2009. The measure is calculated by dividing the number of human exposures treated at home by the total human exposures calls. The number of human exposures treated at home was 16,558 in FY 2008, and 14,729 in FY 2003. In FY 2008, the total number of calls received by the center was 43,078 up 2,568 from FY 2003.

* Benchmark is the 50th Percentile of all UHC hospital readmission rates and is a weighted average of the two most recent quarters of data.C-4

The graph above shows that the Hospital has consistently made improvements in its inpatient readmission rates over time. The Hospital's target is the 25th percentile of the UHC Clinical Data Base. The target is to remain at or below 4.77% (25th percentile), while peers at the 50% percentile are currently at 5.18%. NOTE: In 2007, the large drop in all three categories of data occurred as a result of the hospital's reporting source that upgraded its database and changed its data collection methodology. The University Hospitals Consortium (UHC) newly upgraded database included a change in its risk adjustment methodology; specifically, readmissions were once based upon same or similar DRGs. The readmission methodology was changed to include patients.

* Benchmark is the 20+-member UHC Comparison Group mean score.

The above graph shows that the Hospital had a increase in overall mean score from 2005 to 2008. The target represents a previous satisfaction high point (78.1) for the Hospital with a 1.0 percentage point annual increase for the years 2005-2007, from 2008-2010 the target will rise by .5 per year. This target is an internal working number that can be changed at any time by hospital leadership. From the most recent Press Ganey formal report (4-1-08 -- 6-30-08) the hospital's overall inpatient satisfaction mean score places it in the 18th percentile ranking among the UHC Comparison Group hospital.

Actual	155	171	177	209	230	212					

In the graph above, the UNM Cancer Research & Treatment Center (CRTC) has experienced continued success in cancer trial accruals and expects the trend to continue. The Clinical Protocol Data Management & Informatics Shared Resource (CRTC Clinical Trials Office) has reorganized the clinical trial menu, closing several non-accruing trials, and does not currently anticipate having in excess of 180 -190 clinical trials open during any calendar year period. Though the number of clinical trials opened in 2007 was 221. A robust clinical trial menu, containing trials that are applicable to the New Mexico population, will encourage additional accruals without having an excess of non-accruing trials.

Note that the data reporting time frames changed to calendar years beginning with CY 2003 as required by National Cancer Institute (NCI). The data for CRTC's CY 2003 represents totals through May 2004. In FY 2002, the CRTC reported all trials of 210 instead of only therapeutic trials and normalized the data at 155 therapeutic trials as a best estimate for the year. In 2003, the CRTC changed back to reporting only therapeutic trials as required by the NCI.

* Benchmark: The average of the total commercialization activity levels among the 3-member group of UNM peer institutions in FY 2003-06 (1) with health sciences components separately reporting in the Association of University Technology Managers FY 2003 - FY 2006 Licensing Survey and (2) research expenditures under \$130 million in 2003, \$140 million in 2004, \$148 million in 2005 and \$107 million in 2006.

The graph above shows that the HSC's increased emphasis on licensing and related activities caused a large jump in 2004 with the enhanced partnership with the Science & Technology Corporation (STC) at UNM. Some of the pent-up demand stabilized by 2005. The 2008-2012 targets were adjusted accordingly after the peak year in 2004, in consultation with STC.

Institutional Profile of Eastern New Mexico University

Mission:

Eastern New Mexico University combines a traditional learning environment with twenty-first century technology to provide a rich educational experience. Eastern emphasizes liberal learning, freedom of inquiry, cultural diversity and whole student life. Excellent teaching and active learning define campus relationships. Scholarship, both primary and applied, cultural enrichment, and professional service are also important contributions of the University community.

Eastern, a state institution offering bachelor's and master's degrees, serves students from New Mexico, other states and other nations. Educational programs are offered at the Portales campus and also by interactive distance education, public broadcast television, and branch community colleges in Roswell and Ruidoso, New Mexico.

Eastern's Focus

- Prepare students for careers and advanced study,
- Impart citizenship and leadership skills and values,
- Support and expand the role of education and excellent teaching at all levels, and
- Enable citizens to respond to a rapidly changing world.

NEW MEXICO'S UNIVERSITIES 2002-2003 SURVEY OF STUDENT SATISFACTION WITH UNDERGRADUATE EDUCATION

The Council of University Presidents is committed to seeking regular feedback from appropriate constituencies on the quality and effectiveness of our universities' academic programs and services. Students currently enrolled in our universities are a valuable source of information, which can be used to improve our programs. During the 2002-2003 academic year, New Mexico's six universities surveyed graduating seniors in their respective student bodies to elicit students' perceptions regarding their undergraduate educational experiences. The universities had developed a common set of questions, so all institutions would have comparable information on their students' satisfaction with their educational experiences.

In the body of this PEP report, each institution has reported summary information on its graduating seniors' satisfaction with a number of factors related to the university's undergraduate curriculum/instruction, support services and an overall assessment of their educational experiences at the university. The common set of questions asked of graduating seniors is provided below. Interested parties are encouraged to contact each university for further and more detailed data on the responses of its students. The survey results will be shared throughout each university community and will contribute to future program improvements.

2006-2007 Student Satisfaction Survey

Please rate your satisfaction with your university regarding the following issues:
(1) *Very Satisfied*, (2) *Satisfied*, (3) *Dissatisfied*, (4) *Very Dissatisfied*, (5) *Does Not Apply*)

Curriculum/Instruction

Quality of instruction in your major	1	2	3	4	5
Quality of instruction outside your major	1	2	3	4	5

Overall Assessment

Value of your education, relative to cost	1	2	3	4	5
Your sense of community on campus	1	2	3	4	5
Your preparation for work or graduate school	1	2	3	4	5
Your satisfaction with your college experience	1	2	3	4	5

Your major(s):

If you had to do it over again, would you attend the institution?
If you had to do it over again, would you choose the same major?

What's next?

Choose one or more: graduate school, seek job, already have job in my field, teacher (K-12), seek job in another field, military, or other.

Will you be staying in New Mexico after graduation?

Please comment on any aspect of your collegiate experience that you felt was a particular strength or a particular weakness in the areas of curriculum, instruction, academic support, or your overall college experience.

If you were able to make one significant change in the programs, services or environment for students at this university, what would it be?

APPENDIX III

NEW MEXICO'S UNIVERSITIES SURVEY OF 2003-04 ALUMNI ASSESSMENT OF UNDERGRADUATE EDUCATION

Alumni are a critical source of evaluative information on the quality of a university's academic programs and support services for students. Alumni can offer their perceptions of the quality of the programs and services in place while they were at the university. Alumni also have the advantage of knowing now what would have been useful university preparation for their current employment or educational pursuits. During the 2006-2007 academic year, New Mexico's universities surveyed alumni who were in the graduating class of 2003-2004. The universities developed a common set of questions to be asked of all alumni surveyed in order to have comparable information relating to their alumni's satisfaction with their undergraduate educational preparation.

The alumni survey provided feedback to each university on what its alumni are doing three years after receiving their baccalaureate degrees. This information on alumni employment and further education contributes to a more complete picture of students' progress and success. Also included with the data for each institution in this report is a summary of alumni responses regarding their satisfaction with their undergraduate curriculum and instruction, academic support available to them, and their overall assessment of how well their undergraduate programs developed their skills and prepared them for work and further education. The specific set of questions asked in this alumni survey is provided below. Anyone seeking additional information related to the results of these alumni surveys is encouraged to contact the specific university for a complete report.
